

3.8 Lluvia de ideas

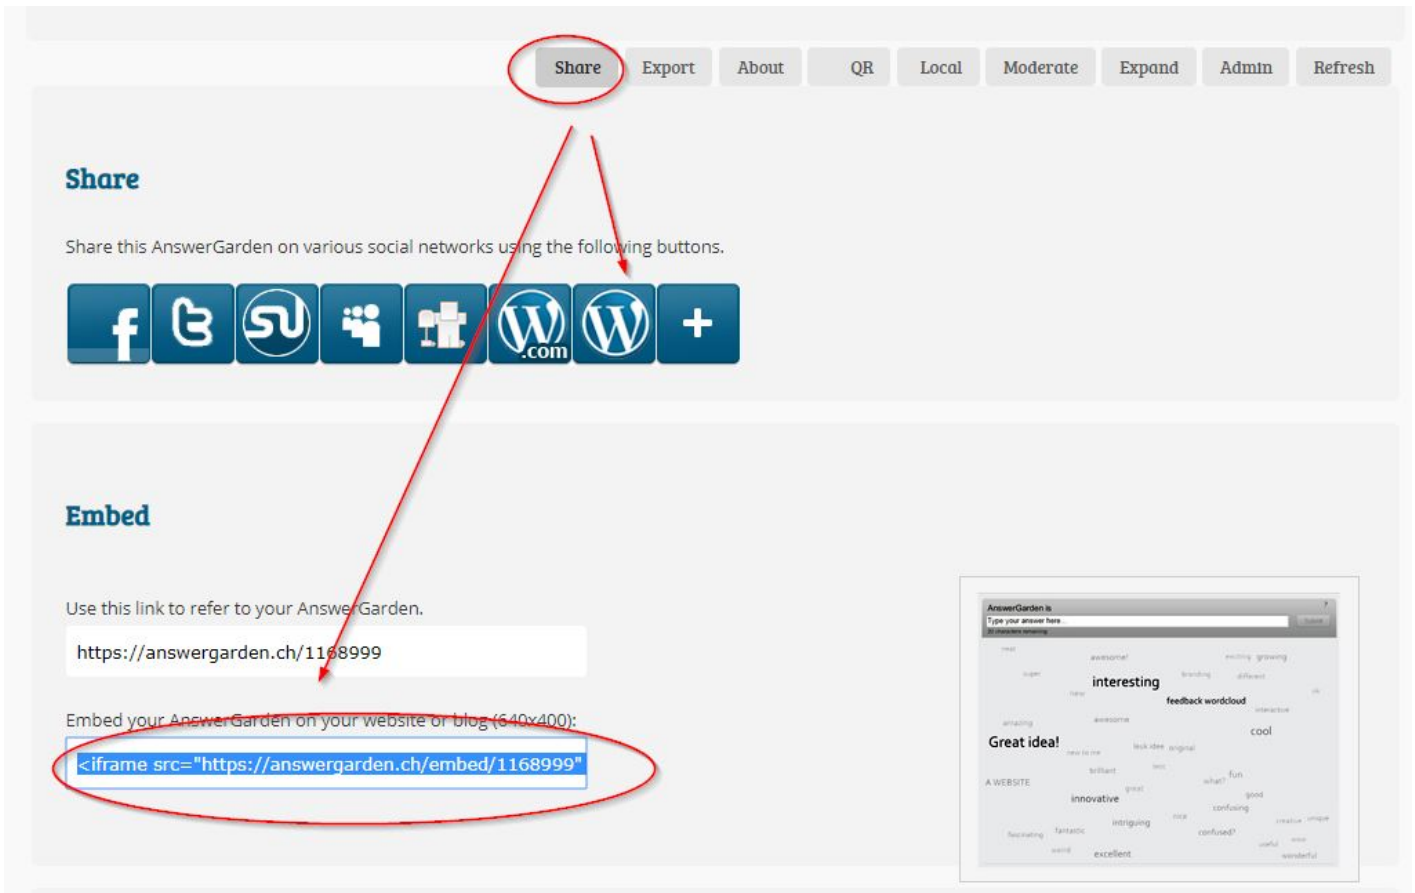

Si queremos que los alumnos participen en una lluvia de ideas, <https://answergarden.ch/> está muy bien, no hace falta registro, sencilla, útil... *recomendamos poner una contraseña y/o un correo electrónico en la creación para poder moderar y quitar contenido inapropiado que alguien pueda poner*

Un ejemplo

Pues sí, puedes participar en esta lluvia de ideas <https://answergarden.ch/1168999> y aquí es cómo queda embebido en tu blog:

¿Cómo consigo el código embed?

The screenshot shows the AnswerGarden interface. At the top, there is a navigation bar with buttons: Share, Export, About, QR, Local, Moderate, Expand, Admin, and Refresh. The 'Share' button is circled in red. Below this, the 'Share' section contains the text 'Share this AnswerGarden on various social networks using the following buttons.' and a row of social media icons: Facebook, Blogger, SoundCloud, Dribbble, DeviantArt, WordPress.com, and WordPress. A red arrow points from the circled 'Share' button to the WordPress.com icon. Below the social media icons is the 'Embed' section. It contains the text 'Use this link to refer to your AnswerGarden.' followed by a text box containing the URL 'https://answergarden.ch/1168999'. Below that, it says 'Embed your AnswerGarden on your website or blog (640x400):' followed by a text box containing the embed code: '<iframe src="https://answergarden.ch/embed/1168999"'. This embed code is also circled in red. To the right of the embed section is a preview of the AnswerGarden interface, showing a search bar and a word cloud with words like 'interesting', 'feedback wordcloud', 'Great idea!', 'innovative', and 'excellent'.

¿Cómo funciona?

Es muuuuy intuitivo, pero aquí tienes una ayuda
